****Water Mgt. Area Water Meter Program.....	0 meters	504 meters
TOTAL DOLLARS	\$2,813,111.00	\$76,930,190.00

* Rescinded as separate practice effective 7/1/94

** These practices not used after 7/1/2001

*** This practice not used after 12/31/05

**** This practice not used after 3/31/05

January 2007

Figures are rounded to the full unit

The **Nebraska Soil and Water Conservation Fund** was established in 1977 to provide state financial assistance to Nebraska landowners installing approved soil and water conservation measures. Since 1977 the **State of Nebraska has provided almost \$77 Million in state cost-share assistance** to Nebraska landowners. The fund is administered at the state level by the **Nebraska Department of Natural Resources** and is coordinated by the state's 23 Natural Resources Districts at the local level with technical assistance provided by the Natural Resources Conservation Service. For additional information on the Nebraska Soil and Water Conservation Fund, contact the **Nebraska Department of Natural Resources** or your local Natural Resources District.

Nebraska Department of Natural Resources

...dedicated to the sustainable use and proper management of the State's natural resources.
